

Product sheet

PDF Office Worker

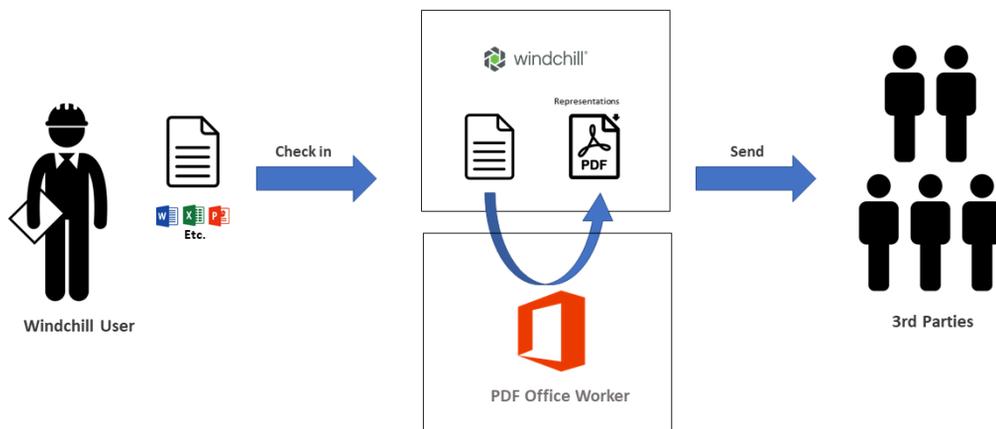

OVERVIEW

Publishing office documents as PDF is a key part of a complete document management solution, however in standard Windchill this requires the use of the costly Adobe Lifecycle product.

The Wincom Office PDF Worker is a Windchill tool that converts Microsoft Office documents into PDF representations. Specifically, it takes a Document with an attached Microsoft Office document and publishes this document in a PDF format.

It is a standard Windchill publisher and it is very easy to install and configure.

FEATURES

- Supports all Microsoft Office formats
- Easy to install through setup wizard
- No Adobe Lifecycle required
- Extendable to support other document formats

User/Site based subscription
